EDUCATION

B.Tech in Computer Science Engineering, 2024

SKILLS

Python, C++, Java, JavaScript, SQL, Git, Docker, Kubernetes, REST APIs, Microsoft Azure, Linux, Data Structures and Algorithms, Object-Oriented Programming, Networking, CI/CD

EXPERIENCE

Software Engineer Intern — CloudTech Solutions — June 2023 – December 2023

- Developed backend services using Python and REST APIs.
- Worked with SQL databases and optimized database queries.
- Used Docker to containerize backend applications.
- Deployed applications on Microsoft Azure.
- Used Git and CI/CD pipelines.
- Worked with distributed backend services.

PROJECTS

Distributed Task Management System

- Developed a microservices-based application using Python.
- Containerized services using Docker.
- Used REST APIs and SQL.
- Deployed the application on Azure.

Student Management System

- Developed using Java and SQL.
- Implemented authentication and CRUD operations.

CERTIFICATIONS

- Microsoft Azure Fundamentals
- Docker Fundamentals
